THE GENERAL RADIO Experimenter

Volume 44 • JANUARY through DECEMBER 1969

1969 INDEX

Index by Title

Analyzer, New-Generation Acoustical (W. R. Kundert, J. A. Lapointe, and G. R. Partridge: May-June)

Bridge, Five-Terminal, 1-MHz Automatic Capacitance (R. F. Sette: November-December)

Bridge, Versatile Resistance (R. K. Leong: November-December)

Calibration of High-Voltage Transformers (L. Medina: July-August)

Calibration, Signal-Generator Output (G. P. McCouch: September-October)

Calibrator, The Semiautomatic DC DVM (Ralph P. Anderson: March-April)

Computers in Measurement Systems?, Why (November-December)

Counter Now Features 35-MHz Bandwidth, 1191 (January-February)

Counter-Punch, The (S. Bentzen: July-August)

Damping Measurements of Resonance Bars (N. F. Fiore and R. M. Brach: September-October)

Designing Fire-Resistant Navy Cable (July-August)

Design, Wideband Amplifier (M. Khazam: January-February)

Detailed Viewing in Ambient Brightness (C. E. Miller: September-October)

Detection, Some Notes on Digital (J. A. Lapointe: May-June)

Deviations from Accuracy (July-August)

Digital Divider, The (R. W. Frank: January-February)

Distortion in Varactor-Modulated Oscillators, Notes on FM (R. K. Altenbach: September-October)

Divider, The Digital (R. W. Frank: January-February)

Faster Switching for 1160-Series Synthesizers (G. H. Lohrer: May-June)

Five-Terminal, 1-MHz Automatic Capacitance Bridge (R. F. Sette: November-December)

From the Far North (September-October)

Generator Improves Its Versatility, A Standard-Signal (September-October)

Honorable Society, The (May-June; September-October)

Impedance Comparison Sprints Ahead (R. K. Leong: May-June)

Mating the GR 1680-A With the IBM 1800 (July-August)

Measurement to 140 dB, VHF and UHF Attenuation (S. Brown Pulliam: May-June)

Measurements of Resonance Bars, Damping (N. F. Fiore and R. M. Brach: September-October)

Millivoltmeter, Wideband 20-dB/Range Ac (K. G. Balekdjian: November-December)

New-Generation Acoustical Analyzer (W. R. Kundert, J. A. Lapointe, and G. R. Partridge: May-June)

New Sweep-Frequency Reflectometer, The (T. E. MacKenzie, J. F. Gilmore, and M. Khazam: March-April)

Noise, Noise, and More Noise! (J. J. Faran, Jr.: March-April)

Noise, Rayleigh–Distributed (J. J. Faran: May-June)

Notes on FM Distortion in Varactor-Modulated Oscillators (R. K. Altenbach: September-October)

Oscillators, Notes on FM Distortion in Varactor-Modulated (R. K. Altenbach: September-October)

Preamplifier, The Viable VHF/UHF (March-April)

Programmable High-Speed DC Recorder, A (M. W. Basch: May-June)

Programming Tests of Communication Cables (July-August)

Rayleigh-Distributed Noise (J. J. Faran: May-June)

Recent Technical Articles by GR Personnel (May-June, July-August, September-October)

Recorder, A Programmable High-Speed DC (M. W. Basch: May-June)

Reflectometer, The New Sweep-Frequency (T. E. MacKenzie, J. F. Gilmore, and M. Khazam: March-April)

Search for a Better Transformer (November-December)

Semiautomatic DC DVM Calibrator, The (Ralph P. Anderson: March-April)

Seminar Scheduling (May-June; July-August)

Signal-Generator Output Calibration (G. P. McCouch: September-October)

Some Notes on Digital Detection (J. A. Lapointe: May-June)

Stable Series of Coaxial Resistance Standards (R. W. Orr: March-April)

Standard-Signal Generator Improves Its Versatility, A (September-October)

Standards, Stable Series of Coaxial Resistance (R. W. Orr: March-April)

Sweep-Frequency Reflectometer, the New (T. E. MacKenzie, J. F. Gilmore, and M. Khazam: March-April)

Synthesizers, Faster Switching for 1160-Series (G. H. Lohrer: May-June)

Transformer, Search for a Better (November-December)

Transformers, Calibration of High-Voltage (L. Medina: July-August)

Versatile Resistance Bridge (R. K. Leong: November-December)

VHF and UHF Attenuation Measurement to 140 dB (S. Brown Pulliam: May-June)

Viable VHF/UHF Preamplifier, The (March-April)

Wideband Amplifier Design (M. Khazam: January-February)

Wideband 20-dB/Range Ac Millivoltmeter (K. G. Balekdjian: November-December)

Why Computers in Measurement Systems? (November-December)

1191 Counter Now Features 35-MHz Bandwidth (January-February)
